

LIST OF ALL PARALLEL SESSIONS

June 2, 10.00-12.00

201 Train your pitching skills

Are you an entrepreneur looking for capital for your business? Will you do a pitch during the summit? Do you want to test or make final adjustment to your presentation? Then this is an opportunity you don't want to miss. Get feedback on your pitch from experts that prepare you to meet investors. All you need to do before joining this session is to put together a 10 minutes presentation that describes your business idea.

Moderator: Maria Rylander, CONNECT, Sweden

Venue: Arena - Brudpiga

June 2, 13.00-15.00

202 Train your pitching skills

Are you an entrepreneur looking for capital for your business? Will you do a pitch during the summit? Do you want to test or make final adjustment to your presentation? Then this is an opportunity you don't want to miss. Get feedback on your pitch from experts that prepare you to meet investors. All you need to do before joining this session is to put together a 10 minutes presentation that describes your business idea.

Moderator: Maria Rylander, CONNECT, Sweden

Venue: Arena - Brudpiga

June 2, 13.00-15.00

203 Training entrepreneurship in practice - a case based workshop (part 1)

In this case based workshop participants have the opportunity to make business decisions and then experience the consequences of those decisions directly. Each participant brings different skills and perspectives to the case and its business environment. Through this session the participant gets practical skills to apply in one's own business.

Moderator: Samuel Gonzales, FundacionE, Mexico

Venue: Arena - South loge

June 2, 13.00-15.00

204 Training in fundamentals of entrepreneurship (part 1)

In this interactive workshop participants will explore the fundamentals of entrepreneurship, engaging one another in an understanding of what it means to be creative and the process of turning ideas into real business ventures.

Moderator: Joel Nitzberg, YES, USA

Venue: Arena - Award room

June 2, 13.00-15.00

205 Training in practical social media skills - with the Rework the World web community

Get an introduction to the Rework the World online community and learn how to use social media to help capture and share the Summit experience with the wider world.

Moderator: Leif Utne, Zanby.com, USA

Venue: Arena - Grannlåttn

June 2, 13.00-15.00

206 Training collaborative business creation - the street is smart

In this Street is Smart-session, participants are divided into teams who will compete against each other in coming up with the best business idea. An idea will be born during the workshop and processed into a new concept which is then presented before a jury. Everyone has a creative ability, and during the workshop you get the opportunity to develop a business idea together with other people.

Moderator: Mohadese Jamatipour, Young Urban Movement Project YUMP, Sweden

Venue: Arena - Lobby East

June 2, 13.00-15.00

207 Social media café

Young Leaders Social Media Cafe is a place for people interested in social media for social change to gather, share and learn from each other. It's a confluence of the creative, tech and entrepreneurial people who are currently gathering around social media and online social networking for a greater cause – social change. This social media café will be in the Hub – this session is a chance to learn more!

Moderator: Javeria Rizvi Kabani, Swedish Institute, Sweden

Venue: Hub meeting room

June 3, 14.00-16.00

311 Theme introduction: Energy

An interactive panel discussion will introduce the energy theme. The starting point is in concrete initiatives that provide energy security solutions through distribution of solar, bio and other non-fossil energy. The session will look into the challenges of taking these efforts to scale, such as financing systems and distribution models, and ask how the significant employment potential of these sectors could be realised. The aim is to explore ways to link emerging new technologies and value chains into the mainstream business systems and emerging carbon markets.

Moderator: Anders Wijkman, Tällberg Foundation, Sweden

Contributions from:

Ola Alterå, Ministry for Enterprise, Energy and Communication, Sweden

Dipal Barua, Bright Green Energy Foundation, Bangladesh

Helga Flores, Inter-American Development Bank, USA
Ragnvald Naero, Statkraft, Norway

Venue: Arena - Floor
With the support of:
Statkraft

312 Theme introduction: Water

An interactive panel discussion will introduce the water theme. With a starting point in new solutions to sanitation, irrigation and urban water infrastructure, the session will trace the challenges along the water cycle and relate these to global concerns of security and health. The session will explore the next steps for new solutions to have a large scale impact, and highlight the gaps in the markets that prevent efficient business systems - with significant employment potential - from emerging to serve these very basic human and social needs.

Moderator: Jan Eliasson, Tällberg Foundation, Sweden and Wateraid, Sweden

Contributions from:
Jakob Granit, SIWI, Sweden
Olatunji Iretomiwa, World Bank, USA
Sunita Narain, Centre for Science and Environment, India

Venue: Brandmannen - Room 1&2

313 Theme introduction: Land

An interactive panel discussion will introduce the land theme. Starting with presentations of three new approaches to land-use, this session will provide wider context and inspiration for on-the-ground sustainable practices for food production, forestry and use of ecosystem services. Panelists and project leaders, representing parts of the large change that is needed, will explore the steps needed to scale up small, promising ventures into transformative, job-intensive, change.

Moderator: Adam Kahane, Reos Partners, USA

Contributions from:
Pete Ondeng, Making Africa Work, Kenya
Johan Rockström, Stockholm Environment Institute, Sweden
Juergen Voegelé, World Bank, USA

Venue: Svea - Aula

With the support of:
The Swedish Co-operative Union – KF

314 Theme introduction: Cities

An interactive panel discussion will introduce the cities theme. The session starts in specific projects that seek to rework urban physical and social infrastructure: housing retrofitting, slum upgrading, rejuvenation efforts of inner city life, etc. With more than half the global population in urban areas, this is a global concern, and a massive business opportunity with large scale employment potential. The session will focus on the ingredients of successful urban interventions, and look at the financial and operative challenges for business to engage.

Moderator: Christine Loh, Tällberg Foundation, Sweden and Civic Exchange, Hong Kong

Contributions from:

Nicky Gavron, London Assembly Member
Ulla Hamilton, City of Stockholm
Arun Nanda, Mahindra & Mahindra, India
Annika Renskjöld, Vattenfall, Sweden

Venue: Visir

With the support of:
Vattenfall

315 Theme introduction: People

An interactive panel discussion will introduce the people theme. The session takes its starting point in a multitude of initiatives that in novel ways seek to build human capital in youth: entrepreneurship, creativity, self-confidence, etc. Proceeding from here, the session will ask how such entrepreneurial initiatives, often emerging outside of established structures, can help influence the current institutions and support the emergence of a vibrant new employment generating sector effectively meeting issues such as exclusion and lack of basic life skills.

Moderator: Rushanara Ali, Young Foundation, UK

Contributions from:

Arvind Mayaram, Ministry of Rural Development, India
Malin Blomgren, Swedish Public Employment Service, Sweden
Joni Simpson, ILO

Venue: Missionskyrkan - Church

June 3, 16.30-18.30

341 Rework Energy: Scaleable business systems for efficient stoves

2.5 billion people depend on wood for their everyday cooking. Efficient stoves and alternatives fuels could provide large scale income generating opportunities with significant and instant climate mitigation impact. This session will look at the challenges of incubating these new value chains, with a starting point in Umbarare, Uganda: business proposition, organisational challenges, financing options and the challenges of linkage efforts to the international carbon markets.

Moderator: Rustom Masalawala, Millenium Promise, USA

Contributions from:

Rustom Masalawala, Millennium Promise, Uganda - Installing 50 000 efficient stoves in Uganda,
Daniel Semakula , YES Uganda, Uganda - One Stop Youth Center

Venue: Arena - Skybar

342 Rework Energy: Large scale mobilisation of women and local communities to create sustainable green livelihoods in India

Organisations such as SEWA have shown that large scale mobilisation of women provide promising avenues for generating new functioning business systems with direct impact on employment and poverty. This session looks at the challenges of significantly scaling existing operations into green services - solar lighting, efficient stoves and biogas - in terms of support systems, financing and implementation.

Moderator: Deepa Gupta, Indian Youth Climate Network IYCN, India

Contributions from:

Mamta Chandar, Jagriti, India - Securing rural livelihood, enterprise development and conservation through improved energy security,
Reema Nanavatya, SEWA, India - Centres of excellence for women's self-sustaining activities in providing rural energy solutions

Venue: Arena - Grannlåttn

343 Rework Energy: Investment proposals for wind, solar, ocean, and bioenergy solutions

In this session, a set of companies that provide different types of energy generation solutions present their business models and the investment opportunities they offer.

Moderator: Maria Rylander, CONNECT Östra Sverige

Contributions from:

Linda Krondahl, HiNation, Sweden - Rugged & mobile solar products for portable energy
Anders Jansson, Minesto, Sweden - A new concept for tidal power plants with a unique ability to operate in low velocities
Peter Platell, RANOTOR, Sweden - High performance steam engine for solar and biofuel CHP
Mikael Andersson and Robert Lyngman, Solarcool, Global (Sweden) - Using new technology to create inexpensive solar-powered refrigerators
Lars Nilson-Dag, Solarus, Sweden - Providing the next generation of solar energy technology to professional users
Björn Hellström, Vertical Wind AB, Sweden - A Sweden based research company developing and manufacturing advanced wind power technology

Venue: Arena - Brudpiga

344 Rework Energy: Bottom of the pyramid - Energy and climate security model through rural microentrepreneurs

Extending renewable energy to the bottom of the pyramid has always been a challenge. This session examines proven models of doing so while also empowering poor women to create green jobs. This model also follows a scalable social business model where recipients pay for their systems and hence maintenance is improved. This session will explore how partnerships can be formed to enable this model be scaled up further and replicated globally.

Moderator: Laina Greene, Bright Green Energy Foundation, USA

Contributions from:

Dipal Barua, Bright Green Energy Foundation, Bangladesh - Proven bottom of the pyramid women empowerment model for successful deployment of renewable energy,
Muzammel Huq, Enterprise Development Company, Asia - Streamlining a sustainable model for energy and agriculture

Venue: Arena - Sturstäv

345 Rework Water: Securing rural water delivery based on low-cost technologies

To develop secure water delivery solutions, key components are the development of low cost technologies and involvement of local communities. Through local financing, sustainable water access and sanitation solutions can be implemented while also contributing to social cohesion. In this session, promising models that both present new technologies and innovative engagement and financing solutions will be presented and developed further.

Moderator: Carl Ganter, Circle of Blue, USA

Contributions from:

Vijay Chaturvedi, Development Alternatives, India - Low cost water security technologies to provide water for all always

Joe Madiath, Gram Vikas, India - Setting up community-driven water and sanitation enterprises

Petra Wadström, Solvatten, India/Africa (Sweden) - Distributing portable, solar driven water cleaning units

Venue: Missionskyrkan - Meeting room

346 Rework Water: New technologies and distribution models for low-cost irrigation solutions

To enhance land productivity in a sustainable manner, also in the dry seasons, large scale implementation of new irrigation solutions will be crucial. This session will explore different innovations in technology, distribution and financing to spread new irrigation tools and practices in rural Africa.

Moderator: Olatunji Iretomiwa, World Bank, USA

Contributions from:

Thais Corral, Adapta Sertao, Brazil - Cross sector cooperation for resource efficient and productive agriculture with drip-irrigation

Regina Kamau, KickStart, Africa - Selling manual water pumps for efficient irrigation

Venue: Missionskyrkan - Top floor

347 Rework Water: Large scale sanitation solutions for the poor

Challenges to provide toilet facilities for the billions of people who lack sufficient sanitation need to be met with new solutions. This session will highlight alternatives to a traditional, water-wasting infrastructure and explore the challenges to spread awareness and implement new products.

Moderator: Wilmot Allen, 1 World Enterprises, USA

Contributions from:

David Kuria, Ecotact, Kenya - Innovative social investments in environmental sanitation and management in Africa

Karin Ruiz, Peepoople, Global (Sweden) - Biodegradable toilet bags for sanitation and fertilizer solutions

Abha Bahadur, Sulabh, India - Sanitation technologies for effective sanitation solutions

Venue: Brandmannen - Room 1

348 Rework Water and Waste: Engaging young people for an efficient recycling infrastructure

Growing volumes of solid waste is an enormous environmental problem. A recycling infrastructure is essential for the elimination of environmental contamination and depletion of natural resources. This session will present and develop youth lead initiatives to create and expand infrastructure to promote recycling practices.

Moderator: Sonia Rasugu, Kenya Community Development Foundation (KCDF), Kenya

Contributions from:

Bharathi Baskaran, S S Fine Fab, India - Creating cotton waste recycling entrepreneurs,
Berkis Polanco, YES Dominican Republic, Dominican Republic - From scrap to art,
transforming lives
Samkeliso Simelane, YES Swaziland, Swaziland - Collaboration is key; youth, recycling
and business
Alvaro Casas, YES Uruguay, Uruguay - Training children of informal recyclers for jobs for
the next generation

Venue: Brandmannen - Room 2

349 Rework Land: Business solutions to combat deforestation and create employment

What new jobs can be created through novel approaches to combating deforestation through efficient agricultural methods, firewood alternatives, and direct reforestation activities? This session will look at how to scale up innovative business models utilising carbon credits, and engaging youth and indigenous communities in sustainable practices.

Moderator: Alejandro Litovsky, Volans, UK

Contributions from:

Alex Pryor, Guayaki, Paraguay - Market driven reforestation through canopy agriculture,
Mariano Cenamo, IDESAM - Greener Apui Project, Brazil - New models for income
generation and reduced deforestation in the Amazon

Mike Hands, Inga Foundation, Honduras - Introducing alley crops as an alternative to
slash and burn agriculture

Dennis Tessier, JET, Tanzania - Building a supply chain for eco-charcoal production

Venue: Svea - Aula

350 Rework Land: Small scale climate friendly cultivating businesses

Food security is a major global challenge. Food production can be if not carefully managed. At the same time it constitutes the key employment sector in rural areas. We face a global challenge to develop different cultivating practices in sustainable and employment creating ways. This session will present small scale sustainable farming practices and explore paths to improve and spread them.

Moderator: Hekani Jakhalu, YES, India

Contributions from:

Maria Rodriguez , Byoearth, Guatemala - Vermicomposting to create organic fertilizers,
David Anderson, Ecoera, Sweden/Global - Fueling the shift towards an era of biochar-
enhanced sustainable agriculture

Roberto Pini, Pro Natura, Latin America/Africa - Biochar enriched vegetable gardens

Venue: Solvi – Room 1

351 Rework Land: Value chains for sustainable food production

Fast food chains struggle with high carbon footprints from the meals they serve. What are the options for dealing with this problem? This session will look at ways to approach this problem through changes in value chains as well as through carbon credits. The session takes its starting point in the specific case of MAX Hamburgers and reforestation projects in Mocambique and Uganda.

Moderator: Dumisani Nyoni, YES Zimbabwe

Contributions from:

Pär Larshans, MAX Hamburgers, Sweden - Developing sustainable value chains in the fast-food industry

Venue: Svea - PK

352 Rework Land: Creating the infrastructure for sustainable and profitable farming businesses

Many poor rural farmers lack connections with the markets of their produce. Creating the information infrastructure that can reach these farmers has potential to empower them to improve and change their farming practices. This session will look into different solutions to provide information, distribution and investment channels for direct connections between farmers and markets. The session will then focus on how to develop partnerships to reach out to the most remote areas.

Moderator: Pete Ondeng, Making Africa Work, Kenya

Contributions from:

Giulio Franzinetti, Gumarabic Fund, Africa - Channelling investments to improve conditions for gum arabic farmers in Sudan, Chad and Nigeria

Frank Mukama, LIFEMATE, Rwanda - Building distribution channels for sustainable coffee growers

Sarita Bahl, MCX, India - Gramin Suvidha Kendra - working with local post offices to provide price information on agricultural products

Venue: Svea - Basement

353 Rework Land: Taking eco-tourism mainstream

The global tourism industry is growing, and thereby also its ecological and social impact. Small scale initiatives are being developed that are using nature and engaging local communities in mutually beneficial ways. This is gaining increasing interest, but has not yet become a mainstream tourist alternative. Will eco-tourism remain a luxurious alternative for the very few, or are there paths to scale up sustainable approaches? This session will explore small-scale initiatives and their potential to have a wider impact.

Moderator: John P. Milton, The Way of Nature, USA

Contributions from:

Svein Wilheimsen, Base Camp, Kenya/India - Sustainable job creation through eco-tourism, Angel Canales, CEDESOS, Peru - Empowering rural families to promote eco-tourism

Jayesh Ranjan, Tourism Department, Government of Andhra Pradesh, India

Venue: Lyktan - Restaurant

354 Rework Cities: Rejuvenating cities through green investments and zero-waste

Factory closings have led to widespread unemployment and a decaying of the social structure in former GM center Flint and other industrial cities. Flint brings a vision of "zero-waste", where biogas investments, new jobs in recycling, education and a general environmental mobilization will be at the heart of the city's revitalization. The city of Västerås, bring complementary experience. In this session new initiatives for urban regeneration will be explored.

Moderator: Göran Carstedt, Clinton Climate Initiative, Sweden

Contributions from:

Dayne Walling, Mayor, City of Flint, Michigan, USA - Zero-waste as an engine for development

Andreas Porswald, Municipality of Västerås, Sweden - In cooperation with households, schools, local transport and farmers, Växtkraft (a biogas plant) creates circulation of organic material between city and countryside

Venue: Arena - Floor

355 Rework Cities: Sustainable urban transportation

Fast growing urban transportation is putting increasing pressures on infrastructure as well as climate and health. This session will highlight innovative solutions to create a new kinds of urban transportation.

Moderator: Diego Hidalgo, Amovens, Spain

Contributions from:

Diego Hidalgo, Amovens, Spain - Youth-led business to reduce traffic in cities through a large-scale car-sharing marketplace, Ramesh Prabhu, SocioEnviro Solutions, India - Selling one million hybrid auto rickshaws

Venue: StPersgården - Top floor 1

With the support of:

DOEN Foundation

356 Rework Cities: Slum upgrading as job creation

What are the comprehensive solutions for providing reliable housing in slum areas? This session will explore new solutions for housing and necessary infrastructure and link it with sustainable livelihood creation to create long term housing and employment opportunities for the poor. One stop shop solutions and new solutions for the social and physical infrastructure are among the issues that will be worked on.

Contributions from:

Rosalind Capisarow, Constellation Communities, UK/Kenya - Transforming the lives of slum-dwellers through affordable home ownership

Benoit Dome, International Copper Association, Brazil - Rewiring Brazilian slums

Juma Assiago, UN HABITAT, Global - Safer cities and youth engagement

Venue: StPersgården - Ground floor

358 Rework Cities: Empowering young leaders for urban transformation and job creation

The session will contextualise youth leadership in an interdependent and globalised world, and explore the role that empowering young people as leaders can play in tackling widespread social challenges common to many urban contexts – including youth unemployment and associated problems of socio-economic exclusion and marginalisation. Youth-led approaches to urban transformation, (green) job creation, sustainability, and related challenges and innovative solutions will be highlighted.

Moderator: Lauren Kahn, Young Foundation, UK

Contributions from:

Chrissy Moog and John-Junior Murray, Sine FM Radio by Higher Rhythm, UK - A youth-led media programme with focus on social issues

Birgitta Nordén, Municipality of Lund, Sweden - Developing democratic action

competence among youth towards contribution and sustainability in the municipality

Liz McDowell and Louise Laker, The Otesha Project, UK - Using sport and the arts to inspire young people to become agents of change for a more sustainable world
Heidi Hinchliffe and Gerard Poyning, ReachOut!, UK - Aspirational voluntary mentoring programme - by young for young
Shanice Duffus and Joel Henry, Starlight Music Academy, UK - Using dance, music and the performing arts to empower young people
Bethan Simpson and Jamie Elkaleh, Warrington Wolves Foundation, UK - Youth-led project aiming to 'Wolf' up its community

Venue: StPersgården - Musikens Hus

359 Rework People: Turning youth at risk into entrepreneurs

Young people in the margin of western societies are often left with few alternatives to the traditional school system. However, with innovative programs to reach them, creativity and entrepreneurial skills are unleashed. This session will discuss successful programs to educate and engage young people from low-income communities, to develop practical skills as well as confidence.

Moderator: Penny Low, Social Innovation Park, Singapore

Contributions from:

David Hertz, Gastromotiva, Brazil - Empowering, educating and offering opportunities to the poor through gastronomy social businesses
Urban Pantzar, KRIS, Sweden - Helping former criminals build capacity for creative, honest entrepreneurship
Henrik Feldhusen, Municipality of Nacka, Sweden - A mall of opportunities - Empowering young adults to become self-supportive and find meaningful work

Venue: Sammilisdal

360 Rework People: Business solutions for skills training of rural youth

To address the problems of unemployment and lack of skills of poor rural youth, innovative approaches are needed. This model, developed between civil society, regional government and private sector, is the first of its kind in India and aims to reach over 7000 rural youth. This session will present and further develop a skills development program that aims to help rural youth to gain access to private sector job placement.

Moderator: Arvind Mayaram, Ministry of Rural Development, India

Contributions from:

PK Joseph, YES India Trust, India
Rajendra Joshi, Empower, India
Rajesh Verma Kumar, ABGUS, India

Venue: Gymnasium - Aula

361 Rework People: Job creation and youth engagement as means of integration in conflict and post-conflict regions

Young people in post-war and conflict ridden regions face enormous challenges, amongs them the lack of sustainable livelihoods and meaningful employment. This session will explore means to involve, empower and train young people to take part in farming, build their own businesses and become employable. Specific focus will be on how these efforts can be scaled up to reach out wider as well as inform other efforts tackling similar conflict related challenges.

Moderator: Mohamed A Shehab El Din, Nahdet El Mahrousa, Egypt

Contributions from:

Francesca DallaValle, FAO, Palestine - Promoting employment and entrepreneurship for youth in Palestine,

Kimmie Weeks, Youth Action International , Liberia/Sierra Leone - Training young people for jobs and self-employment in post-conflict societies

Venue: Arena – Award room

362 Rework People: Media to drive a culture of entrepreneurship

To reach out with the information and tools necessary to empower youth to create their own futures and contribute to sustainable societies, traditional channels have proved insufficient. New channels, a new language and involvement of the target groups are necessary. This session will present new approaches to use media to engage young people, and explore how successful concepts can be replicated.

Moderator: Guy Lieberman, Second Nature Sustainable Solutions, South Africa

Contributions from:

Anna Elliot, Bamyán Media, Afghanistan - Promoting social entrepreneurship through reality TV

Merten Sievers, ILO - The PALAMA Campaign; Promoting an enterprise culture with forum theatre in Sri Lanka

Minou Fuglesang, Femina HIP, Tanzania - Channeling entrepreneurship awareness through popular mass media

Lebo Ramafoko, Kwanda, South Africa - Youth-led reality TV to promote entrepreneurship and development

Joel Bayubasire, YES DRC, Democratic Republic of Congo - Motivating youth through video documentaries and radio shows

Venue: Musikskolan

363 Rework People: Artists as creative entrepreneurs enabling growth and development

Culture is a dynamic growth sector both in terms of local communities, economy and livelihoods, and thus plays a key role in development. Although funding to cultural entrepreneurs and organisations remains a challenge, initiatives are blossoming, attracting talent and developing new audiences. This session will highlight and take forward initiatives that are spearheading local cultural industries by not only inspiring the artists to become entrepreneurs but also attracting policy makers and business leaders to participate in a vibrant cultural discourse on sustainable development. Artists themselves learn from each other about how their artistic talent can find innovative ways to sustain livelihoods and to create networks that are becoming strong forces and strong voices in their societies.

Moderator: Pratik Vithlani, Mimeta – centre for culture and development, Sweden

Contributions from:

José Osorio, Asociación Civil Caja Lúdica, Latin America - Community development through youth led art and cultural initiatives

Ines Sanguinetti, Crear Vale la Pena, Argentina - Creative centres in shanty towns to generate youth art enterprises

Joy Mboya, GoDown Art Centre, Kenya - Supporting creative talents to make their full contribution to East African society

Venue: Missionskyrkan - Church

364 Rework People: Web platforms to support entrepreneurs

Many entrepreneurs work in relative isolation from other similar initiatives and thus the exchange of knowledge and experience is limited. Virtual networks provide a possibility for entrepreneurs with sustainable solutions to connect and create synergies. This session will show-case global and local on-line tools to support green entrepreneurs and explore how these networks can be further developed.

Moderator: Constance Hybsier, SEED, Germany

Contributions from:

Mauricio Davila, CDI - Centre for Digital Inclusion, Global - Training in communication technologies to stimulate entrepreneurship

Igor Casapu, Moldova Youth Employment Platform, Moldova - Connecting small businesses and providing support services through a web platform

Raul Rodrigues, YES Colombia, Colombia - Empowering youth through digital platforms

Venue: Gymnasium - Classroom 1

June 3, 20.30-21.30

371 How global youth rework the world

Youth from all around the world have ideas, experiences and knowledge about what policy steps are needed to rework the world. During this session we will gather youth organizations and young participants at the summit for a world café dialogue. By illustrating, exploring and exemplifying success stories during this creative session we will lay a foundation for new political ideas.

Moderator: Amir Sajadi, National Council of Swedish Youth Organisations LSU, Sweden

Venue: StPersgården - Ground floor

372 Power and Love

The two methods most frequently employed to solve our toughest social problems - relying on violence and aggression, or submitting to endless negotiation and compromise - are fundamentally flawed. This is because the seemingly contradictory drives behind these approaches - power, the desire to achieve one's purpose, and love, the urge to unite with others - are actually complementary. As Dr. Martin Luther King Jr. put it, "Power without love is reckless and abusive, and love without power is sentimental and anaemic." But how do you combine them?

Presentation by Adam Kahane, Reos Partners, USA

Venue: StPersgården - Top floor 1

373 SEVEN - Voices from women change makers around the world

SEVEN is a groundbreaking work of documentary theatre. The play, based on interviews conducted in 2007, portrays seven women's rights activists from around the world, who triumphed over enormous obstacles to bring about major changes in their home countries. Over 150 politicians, actors and other amateurs have appeared in the Riksteatern tour of the play. Here we proudly present SEVEN featuring seven of the summit participants, including Swedish Minister for EU-Affairs Birgitta Ohlsson. A discussion follows.

Produced by Riksteatern and Vital Voices

Venue: Brandmannen - Room 1&2

374 Breath of Music: Unlocking positions

You are invited to a performance of music in a more intimate setting to offer you time both to catch your breath and be inspired by music and words. A time for reflection and unique conversations lead by Yair Dalal; composer, violinist, oud player and singer; probably the most prolific Israeli ethnic musician who plays an important role in shaping the global world music scene.

Performance by Yair Dalal, Oud player, Israel

Venue: StPersgården - Musikens Hus

375 Breath of Music: No More Lullabies

You are invited to performances of music in more intimate settings, to offer you time both to catch your breath and be inspired by artists from the No more Lullabies project working in different musical genres with their own stories to tell. A time for reflection, unique conversations and the chance to connect with each other in new ways.

Venue: Hembygdsgårdar - Tunet

376 Peak Oil

Presentation by Kjell Aleklett, Global Energy Systems, Uppsala University, Sweden

Venue: Missionskyrkan - Meetingroom

378 City Signs 2000 (movie)

This film presents a tour in year 2000 to 10 major cities with 10 large canvases, 10 colors and 28 questions. The film captures ordinary daily life around the world - London, Paris, Moscow, New York, Rio de Janeiro, Cape Town, Shanghai, Tokyo, Sydney and Mumbai. In each city a large canvas was placed at the city center, for people to express themselves. The paintings and the 28 questions – about daily routines as well as existential issues – give us a frame of reference to form a basis for global comparison. City Signs 2000 is a message to the future from people in the past.

Directed by Mats Omne

Venue: Visir

379 New forms of cross-sector partnerships to engage youth

Inspiring examples from local Swedish municipalities on how to involve and empower young people across sectors, such as entrepreneurial training, higher education, civil society and local businesses. Marginalized young people require many different ways of engagements in order to become an active member of the society. This session will give the Swedish audience an opportunity to give input to these innovative examples and discuss next steps and broader engagements.

This session is held in Swedish

Moderator: Henrik Feldhusen, Municipality of Nacka, Sweden

Contributions from the municipality of Nacka, with reflections from other Swedish municipalities (Botkyrka, Lerum, Lund, Ronneby, Sunne, Västerås).

Venue: StPersgården - Top floor 2

June 4, 08.30-09.30

401 A nature experience to empower change makers

How do I meet others with presence, authenticity and strength during my day? How do I use nature to slowdown, become grounded, centered and mindful? This session will focus on practices that can be a catalyst to make you present, focused and clear when you meet opportunities as they arise. It will be more practice and less words. You will practice to respectfully listen to nature as a source of inspiration and still your own mind - you may learn to separate the petty stuff from the important.

Guides: Mark Beanland, Denmark; Rowan Simonsen, Upstream Consulting, Denmark

Venue: Outdoors - Arena entrance

402 Conscious capitalism

Conscious capitalism is uniting forward-thinking business practitioners who believe that businesses can exist for a purpose beyond generating profits for shareholders, that they can create all kinds of wealth —financial, intellectual, social, cultural, ecological and spiritual and that they can be managed for the simultaneous benefit of all key stakeholders.

Presentation by Raj Sisodia, Bentley University Business School, Conscious Capitalism Institute, USA

Venue: Arena - South loge

403 Do's and don't in social entrepreneurship

What are the lessons learned from social entrepreneurs in northern Europe today? What lies behind the successes? What can we learn not to repeat from the failures? This session will present experiences and insights responding to these questions and open up to a discussion on what it means to be a social entrepreneur.

Moderator: Harry McNeil, Social Entrepreneurship Forum, Sweden

Contributions from Tatjana Cvetkova, Partner in Ideas fund, Latvia

Venue: Arena - Restaurant

404 Connecting to face future challenges together

For the first time in history, we can understand our common future and shape it using the power of networks and online collaboration tools. www.futurechallenges.org, will make knowledge more accessible to everyone and foster dialogue between experts and non-experts. The aim is to empower people and institutions to discuss future challenges.

Presentation by Ole Wintermann, Future Challenges Project, Bertelsmann Foundation, Germany

Venue: Arena - Award room

405 The future of globalisation - the end of the nation state?

The Nation State is firmly based on territorial and political sovereignty, and has influenced the architecture of constitutions ever since the 17th century. This principle also underpins the constitutions of most international/multilateral organizations. However, the world has become organized in a way that make key properties of our countries become part of globalized systems, such as finance, information, production, logistics. The ecological system has, of course, always been a complex, interactive global system. The dilemma of our time is that we increasingly need to govern such global systems and not only the parts - the nation states.

Conversation between Nayan Chanda, Author and Editor, YaleGlobal Online, Yale Center for the Study of Globalization, USA and Bo Ekman, Tällberg Foundation. Sweden

Venue: Arena - Brudpiga

406 Café for a new world - Open conversation in the Arena

Join this session to listen to other participants and share what 'rework' means to you! What change do you want to see? What challenges do you want leaders to meet?

Moderators: Emma Nilsson, Tällberg Foundation, Sweden, and Anna Emmelin, Sweden

Venue: Arena - Floor

June 4, 14.00-16.00

411 Rework Energy: Distribution systems for solar products and solar systems in East Africa

Lighting Africa with solar energy will be a key component of the region's development. Challenges to make solar lights available for all include technology development, but is to a larger extent a distribution, financing and awareness issue. This session will explore different models to implement small scale solar energy solutions in rural East Africa, and highlight commercial and non-profit alternatives.

Moderator: Ronald Osumba, Safaricom, Kenya

Contributions from:

Pepijn Steemers, D.light Design, East Africa - A new business model to distribute solar lights through young entrepreneurs

James Akumu, Solar Solution Africa, Kenya - Providing affordable solar energy solutions for local communities

Nick Sireau, Solaraid, Africa/Latin America - Sunny Money: Distributing solar products through micro-franchising

Emmanuel Dennis, YES Kenya, Kenya - Creating a solar distribution chain through youth groups

Venue: Arena - Restaurant

412 Rework Energy: Rural business systems based on bioenergy generation

Sustainable rural energy provision will need to include a large component of bio-energy. With new technologies for small scale bioenergy generation, there is significant potential to create new jobs, income and drive development more generally. The session will explore options to link traditional farming with bio-energy generation and search for ways to expand complementary models into new employment generating sectors.

Moderator: Shashank Verma, CleanStar Trust, India

Contributions from:

Alexander Bennet Eaton, Biogas Solutions Group, Latin America - Distributing small scale bio digesters across Latin America,

Shashank Verma, CleanStar Trust, India - Re-powering mobile phone towers with local bio-fuel,

Nupur Agrawal, Development Alternatives, India - Creating large-scale rural bio energy businesses

Venue: Arena- Sky bar

413 Rework Energy: A global clean-tech valley in China

Many small clean-tech initiatives are being developed independently of each other. Establishing centers of excellence for research and incubating activities can have a strong catalysing effect. With the Silicon valley as a model, how can a clean tech valley – based in China and with global scope - be developed? What are the steps to connect all necessary players – researchers, entrepreneurs and financiers?

Moderator: Arne Forstenberg, Global Focus, Sweden

Venue: Arena - Brudpiga

414 Rework Water and Waste: From recycled resources to new merchandise

Landfills around the world are filled with resources that have potential to be re-used or re-cycled into useful objects. There are promising small initiatives that are turning this waste problem into profitable business opportunities, thus creating both attractive products and employment. This session will highlight some of these initiatives and explore opportunities to scale up and replicate models.

Moderator: Jennifer Leonard, IDEO, USA

Contributions from:

Maria Lourdes Molina, Ecobloks, Phillipines - Reusing scrap wood and reviving open-ended play with eco-friendly building blocks for children

Tobias Roos, ReFurn, Sweden - Reinventing the furnishing industry by restoring and converting discarded furniture

Denise Matias, The Green Itch Project, Phillipines - An eco-social youth enterprise producing handmade recycled paper products

Venue: Brandmannen - Room 2

415 Rework Land: New businesses based on nature's design

How can we stimulate entrepreneurship and innovations that provide economic growth in harmony with the Planet? The concept of the Blue Economy is to introduce a new notion of economic growth and highlights innovations that are utilising nature's traits in new ways, and eliminating the use of non-renewable resources. This session will highlight scientific innovations and easily replicable business opportunities that are inspired by nature.

Moderator: Gunter Pauli, The Zero Emissions Research and Initiatives Network (ZERI), Japan

Contributions from:

Chido Govero, Zero Emmission Research Initiatives (ZERI), Zimbabwe

Venue: Svea - Aula

416 Rework Land: Systems based solutions for large scale rural employment creation

Large scale employment creation requires a push from micro entrepreneurs to SMEs. This step is challenging, as lacking financial infrastructure and support systems make the emergence of more complex value chains difficult, thus holding back employment generation. With a starting point in efforts to replicate small sustainable models for farming entrepreneurship and rural services, the session will look at pathways for even great impact.

Moderator: Vidya Jain, Centre for Gandhian Studies, University of Rajasthan, India

Contributions from:

Muzammel Huq, Enterprise Development Company, Asia - Streamlining a sustainable model for energy and agriculture
Charlotte Bohman, Hand In Hand, Sweden/India - Eliminating poverty through job creation

Venue: Musikskolan

417 Rework Land: Large-scale ecosystem restoration

Rapid population growth and unsustainable agriculture has led to drastic reductions of land productivity and extreme poverty. Yet by addressing systemic issues– including education, economic incentives, infrastructure, culture, etc - a few large-scale ecosystem restoration projects have showed how it is possible to turn a negative spiral into a positive to accomplish resilience. Opening with cases from The Loess Plateau in China, and Rwanda/Ethiopia, the session will then move on to ask if generic key success criteria for such interventions exist and what competences and implementation models are required.

Moderator: Niclas Ihrén, Tällberg Foundation, Sweden

Contributions from:

John Liu, EEMP, China - Restoring lost ecosystems - the Loess Plateau

Marie-Noelle Keijzer, WeForest, Global - Promoting permaculture-based reforestation through micro-finance

Juergen Voegelé, World Bank, Global

Venue: Solvi - Room 1&2

419 Rework Cities: Models for radical retrofitting of one million flats in Sweden - the local perspective

Large scale and radical retrofitting of the old Swedish housing stock holds out a phenomenal potential for energy savings, job creation and social benefits. Yet the complexity is daunting and the financing and implementation challenges severe. In this session a set of diverse bottom-up approaches are presented and discussed.

Moderator: Göran Carstedt, The Natural Step, Sweden

Contributions from:

Tomas Kåberger, Energimyndigheten, Sweden - A social and physical renovation of the Swedish million-programs

Peter Nyberg, Municipality of Botkyrka, Sweden - Preparing local institutions and citizens for the regeneration of large housing areas

David Gillanders, Municipality of Ronneby, Sweden - New planning model to transform the local construction industry and move towards a zero-carbon society

Venue: St Persgården - Ground floor

420 Rework Cities: The employment agencies of the future

What are the new paths to get young people into the job market? New kinds of employment agencies are developing models that develop self-confidence, encourage entrepreneurship and use mentorship as a means to find or create jobs. This session will highlight innovative Swedish municipal and civil independent models and explore the challenge to create the employment agencies of the future.

Moderator: Sean Germond, Pygmalion Management Consultants, South Africa

Contributions from:

Mathias Mellgren, Communicare, Sweden - Helping young people do what they want to by stimulating entrepreneurship
Anna Maron, Mälardalen University / Career Plaza, Sweden - Making students confident and career-wise through deep collaboration with future employers
Björn Nordén, YOU Västerås, Sweden - Inverting traditional job generation concepts to change the way we view youth unemployment
Sofia Appelgren, MyLife, Sweden - Integrating young immigrants on the job market and society through mentorship

Venue: St Persgården - Top floor 1

421 Rework People: Providing youth with skills for entrepreneurship

There is a lack of education and training programs that provide young people with the skills and self confidence needed to develop businesses and employment opportunities. Existing examples of successful efforts urgently need to be developed further and spread. This session will highlight successful efforts to reach out large scale with new educational programs, where youth led activities are at the core. For these to have large scale impact, solutions across government, civil society and business sectors are needed. What are the next steps in this development?

Moderator: Humphrey Polepole, Tanzania Youth Coalition, Tanzania

Contributions from:

Joni Simpson, Know About Business/ILO, Global - Unleashing youths entrepreneurial capacities for decent employment returns
Irene Mutumba, Private Education Development Network, Uganda - Promoting youth development through entrepreneurship and enterprise education
Ali Khan, YES Pakistan, Pakistan - Engaging and training youth for social entrepreneurship

Venue:-Gymnasium - Aula

422 Rework People: Incubators to strengthen young entrepreneurs

A good idea and the ambition to realize it isn't always enough. Germinating initiatives often need guidance and support to bloom. This session explores various frameworks for incubating promising initiatives, comparing concrete experiences and discussing best practice procedures.

Moderator: Igor Casapu, Youth Employment Center STAR, Moldova

Contributions from:

Eugeniu Graur, CERTITUDE, Moldova - Engaging young bankers to provide training and seed investment for young rural entrepreneurs
Stef van Dongen, ENVIU, Global - Incubating creative green businesses
Samuel Guzman, Fundacion E, Mexico - Building entrepreneurship capacity in partnerships with universities, government, business and civil society
Graciela Duran, YES Chile, Chile - Green entrepreneurship working with business sector

Venue: Brandmannen - Room 1

423 Rework People: Using music and creativity to engage youth at risk

What approaches to engage young people at risk have the possibility to reach out effectively? How can music and street culture be used to engage marginalised and criminal youth? This session will focus on alternative ways to engage young people in creative work and teach how to gain income from such work and build networks for them to support each other. Initiatives with strong track records will be showcased. Examples will highlight the use of hip hop and street art to encourage creativity and

entrepreneurship, and also explore different methodological approaches, such as the study circle method and youth to youth teaching.

Moderators: Jenny Berg, Studieförbundet Vuxenskolan, Sweden, and Polki Nordström, Studieförbundet Vuxenskolan, Sweden

Contributions from:

Hector Castillo Berthier, Flying Circus, Mexico - Reconnecting youth with the community through multiple creative methods

Jenny Berg, Studieförbundet Vuxenskolan, Sweden/South Africa - Developing creative skills and income opportunities through hip hop music, using the study circle method

Venue: Sammilsdal

With the support of:

Studieförbundet Vuxenskolan

424 Rework People: Using social media to engage youth, encourage entrepreneurship and promote democracy

How can we best use interactive online platforms to convene a global conversation about the many facets of democracy? This session will take its starting point in how young people around the world have already drawn the link between democracy, opportunities and entrepreneurship. Add your voice and your ideas to the conversation. Democracy is... Entrepreneurship?

Moderators: Jennifer Corriero, TakingIT Global, Canada and Jonathan Margolis, State Department, USA

Venue: Arena - Grannlån

426 Rework Finance: New tools to finance sustainable businesses

Trillions of dollars will be invested in new infrastructure the next few decades – much of this in Asia and Africa. This provides an enormous opportunity to use massive investments for a redirection towards carbon-free and sustainable solutions. However, the financing mechanisms are or not well adapted to the needs of the entrepreneurs and customers in these emerging markets. This session will highlight innovative financing models responding to this challenge, and we will develop ideas on how to stimulate the creation and global growth of these important tools for accelerated sustainable development.

Contributions from:

Dipal Barua, Bright Green Energy Foundation, Bangladesh

Marco Berggren, Tricorona, Sweden

Jean-Philippe de Schrevel, Bamboo Finance/Blue Orchard Investment

Roger Garman, Sida, Sweden

Lasse Gustavsson, WWF, Sweden

Venue: Arena - Award room

427 Rework Finance: Channeling pension money for a sustainable world

Pension funds constitute a massive pool of long-term capital, from many perspectives ideally suited to power the sustainability transition. Yet numerous institutional, legal and cultural challenges prevent a large scale flow of funds to prevail. New approaches and forms of intermediation are however emerging. The session looks at how to speed up the channeling of pension funds to long-term social needs.

Moderator: Giulio Franzinetti, Gum Arabic, UK

Contributions from:

Sara McPhee, SPP, Sweden

Peter Norman, Seventh Swedish National Pension Fund, Sweden

Venue: Svea - Basement

431 Featured session: Equal access to jobs, markets and the economy?

In the global challenge to provide employment opportunities economic development and sustainability, equal access to the labour market and opportunities in societies is often overlooked. This session will explore the challenges to provide men and women equal opportunities to both benefit from and be part of development.

Moderator: Hafsat Abiola, Kudirat Initiative for Democracy (KIND), Nigeria/USA

Contributions from:

Katrine Kielos, journalist, Sweden

Birgitta Ohlsson, Minister for EU-Affairs, Sweden

Neeta Patel, SEWA, India

Susanne Wadstein, Gender and Equality team, Sida, Sweden

Svein Wilhelmsen, Basecamp Explorer A/S, Norway

Venue: Visir

432 Featured session: Rethinking human activities to stay within the planetary boundaries

In 2008 a distinguished team of scientists gathered in Tällberg to assess the state of the planet. What they concluded was alarming - in addition to climate change, we may be fast approaching irreversible tipping points in the earth system that, if crossed, could destabilize the planet. To help us steer clear of these dangers the scientists developed a new framework called the Planetary Boundaries. During this session you will learn about the science supporting this innovative framework as well as how it can guide us to create a safer operating space for humanity.

Moderator: Johan Rockström, Stockholm Environment Institute SEI, Sweden

Contributions from:

Jonathan Foley, Institute on the Environment (IonE), USA

Kevin Noone, Stockholm Environment Institute, Sweden

Katherine Richardson Christensen, University of Aarhus, Denmark

Venue: Arena - Floor

433 Rethinking entrepreneurship in the Arab world

The Arab world contains both resource rich and developing economies. But diversification is required across the board. In many cases this will require moving towards knowledge-based economies and growing service sectors. Consequently, government, business and civil society need to educate and nurture local talent, encourage innovation, and create value-driven relationships. This session brings together actors from across the region to reflect upon on-going efforts and sketch upon models for the future.

Moderator: Borzou Daragahi, Journalist, Lebanon

Contributions from:

Aziza Al Ghafri, Ministry of Higher Education, Oman;

Nayrouz Rizk, Bibliotheca Alexandrina, Egypt

Venue: Lyktan – Restaurant

434 Rethinking growth

Mainstream economic theory and policy is under attack, and in particular the central role played by economic growth (GDP growth). This conversation will explore what kind of growth we need, how we can measure it and which policies are needed to steer towards a sustainable and inclusive economy and society.

Moderator: Dan Hjalmarsson, Growth Analysis, Sweden

Contributions from:

Eva Alfredsson, Growth Analysis, Sweden

Steven Spratt, IIED, UK

Ernst von Weizsäcker, International Panel for Sustainable Resource Management, Germany

Venue: StPersgården - Musikens Hus

435 Rethinking innovation and technology

Of all human traits that render us resilient, the capacity to create, innovate and generate solutions to seemingly impossible resource bottlenecks and social challenges is perhaps most important. Innovation inspires and give us hope. Together with actors from different links in the innovation chain, from young designers to leading academics, this session will explore ideas for innovating faster, safer and within boundaries set by nature.

Moderator: Rebecca Oliver, Tällberg Foundation, Sweden

Contributions from:

Brian Arthur, Santa Fe Institute, USA

Matthew Barzun, Ambassador of the United States of America to Sweden

Cecilia Hertz, Umbilical Design, Sweden

Björn O. Nilsson, The Royal Swedish Academy of Engineering Sciences, Sweden

Venue: Arena - Sturstäv

436 Rethinking marketing strategies to promote sustainable ventures

This conversation will explore different marketing strategies, with specific focus on digital marketing, to reach and involve a large audience. The session will take its starting point from specific work done during the summit together with participating projects.

Moderator: Henrik Edlund, MRM Starsky, Sweden

Venue: StPersgården - Top floor 2

437 Rethinking employment, sustainability and conflict resolution

Unemployed youth constitute one of the greatest threats to societal stability, while also offer great potential as constructive change agents. This session will introduce an empowering training program to equip youth leaders and their partners in the skills of constructive intervention in conflict and approaches to systemic peace building. This training can help equip youth to bring both creativity and contributions to political and economic stability in individual nations and within regions.

Moderators: Bob Evans and Alice Evans, the Plowshares Institute, Yan Yan Yip, Civic-Exchange, Hong Kong

Venue: Missionskyrkan - Meeting room

438 Rethinking the Amazon rainforest - Wealth in an economy of the biosphere

The Amazon provides vital economic services to the global economy. Despite this, the Amazon is still thought of as a 'back-yard' for the nine countries that make up the river basin. Indigenous cultures in the forest are in balance with nature, but this is not understood by more 'modern' societies. A new way of seeing the 'value' of the Amazon has the potential to unleash new forms of global finance and investment decisions and create better long-term governance systems. What kind of economy is emerging? How will we ensure that the new global investment trends into the Amazon will build a more sustainable future?

Moderator: Alejandro Litovsky, Volans, UK

Contributions from:

Martin von Hildebrand, Fundacion Gaia Amazonas, Colombia

Mariano Cenamo, Institute for Conservation and Sustainable Development of Amazonas (IDESAM), Brazil

Venue: Missionskyrkan - Top floor

June 4, 16.30-18.30

441 Rework Energy: Expanding solar energy through SME-based rental services

Experimentation in business models for solar electrification is intense, ranging from the sale of individual products, min-grid installations, and here SME based rental services. The session explores the challenges of getting these business models right, so as to enable global value chains to emerge.

Moderator: Alexander Reyes, Rurallight, Phillipines

Contributions from:

Andy Schroeter, Sunlabob, Laos/Uganda/Afghanistan - Creating innovative solar-

businesses Debajit Palit, TERI, India - Lighting a billion lives by renting out solar lanterns

Venue: Arena - South loge

442 Rework Energy: Advancing established business in solar energy

The global solar energy industry is growing fast and with it successful businesses in emerging markets. What can we learn from distribution and service models applied by some of the most successful solar energy players in India and China? What challenges to they face to develop further, in terms of technology development, infrastructure as well as market expansion?

Moderator: Josefine Fogelberg, IKEA, Sweden

Contributions from:

Huang Ming, Himin Energy, China - World leading solar energy and solar water heater manufacturer

Damian Miller, Orb Energy, India - India's largest direct solar sales and service company

Venue: Arena - Grannlåttn

443 Rework Water and Waste: Keeping communities clean and creating new jobs

There is an unleashed potential in job creation and social improvements from waste management and keeping communities clean. This session will explore different practices of community mobilization to generate opportunities through waste management. The

session will also look into the opportunities and challenges that these initiatives face and explore partnerships that can be created to manage and ensure good, clean and healthy communities for all.

Moderator: Caroline Howe, Climate Solutions, India

Contributions from:

Poonam Bir Kasturi , Daily Dump, India - Waste management - generating jobs and keeping waste out of landfills

Praveen Kumar Pridhvi, Exnora International/YES Tamil Nadu, India - Creating 1000 jobs every year through solid waste management

Arturo Alfaro, YES Peru, Peru - Creating jobs through cleaning and sanitation programs

Venue: Brandmannen - Room 2

444 Rework Water: Joint solutions to health problems and clean water access

Arsenic in the ground water is responsible for a gigantic health problem in Bangladesh. The vast majority of affected people live in rural areas and lack access to information and equipment to deal with this. This session will bring attention to possible steps forward for a comprehensive solution to this health crisis (both to treat the symptoms and deal with the root problems), combining the most recent science and technology with a decentralized distribution and implementation model. In implementing these solutions, hundreds of people may be engaged initially, with potential for thousands of new jobs if implemented large scale.

Moderator: Louise Andersson, Swedish Sustainability Foundation, Sweden

Contributions from:

Tanvi Keyur Patel, Aqua Beauty Salon, India - Services and small scale units for domestic waste water treatment

Ershad Ullah Khan, Scarab Development AB, Bangladesh - Small-Scale, renewable polygeneration system for electricity and arsenic-free water

Kader Abdul, Viola Vitalis, Bangladesh - Creating jobs through health care distribution channels

Venue: Brandmannen - Room 1

445 Rework Land: Sustainable innovations in the textile and fashion industry

Most textile production today uses cotton produced in unsustainable ways, while the fashion industry consumes increasing flows of material. However, alternatives exist and are growing. This session will highlight a selection of promising initiatives, exploring how they can develop further, as well as how new practices can change the industry at large.

Moderator: Mathilda Tham, Beckmans College of Design, Sweden

Contributions from:

Sebastian Stjern & Lisa Stjern, Fair Tailor, Sweden/Nepal - Business-NGO partnership to produce and market fair trade clothes

Emma Palmér, FANGSI House of Quality & Logistics AB, Sweden/China/India - Helping Chinese and Indian textile and fashion businesses to increase transparency in the distribution chain

Carmagne Cruz, Jacinto & Lirio, Philippines - Transforming the wather hyacinth problem into eco-friendly accessories

Nike Kondakis, KONDAKIS, Kenya - New garments and accessories from recycled parachutes and forest waste

Uma Swaminathan, SEWA, India - A sustainable, chemical-free clothes collection that generates employment for rural poor households

Caroline von Post Carlsson, Stormie Poodle, Sweden/Latvia - Creating new clothes and new jobs out of used quality textiles

Venue: Arena - Sky bar

446 Rework Cities: Models for radical retrofitting of one million flats in Sweden - the national perspective

Large scale and radical retrofitting of the old Swedish housing stock holds out a phenomenal potential for energy savings, job creation and social benefits. Yet the complexity is daunting and the financing and implementation challenges severe. In this session the necessary municipal, corporate and national initiatives are explored.

Moderator: Göran Carstedt, Clinton Climate Initiative, Sweden

Contributions from:

Tomas Kåberger, Swedish Energy Agency, Sweden

Peter Norman, Seventh Swedish National Pension Fund, Sweden

Peter Head, Arup, UK

Venue: StPersgården - Ground floor

447 Rework People: Mutually beneficial interfaces between culture entrepreneurs, policy makers and investors

Culture is multifaceted, encompassing our basic human urge to express and understand ourselves – giving us identity, as well as encouraging our minds progressively to explore and question traditions, communities and societies. Culture is also a means for livelihood and presents opportunities for entrepreneurship. Rightly supported, the cultural sector becomes a dynamic force in human and social development and at the same time, an energetic job creating sector. The challenge is thus to figure out what this “right support” would look like. This session will highlight and develop ways donors and aid organisations can incorporate culture in their work, and develop strategies and practical guidelines for capturing the potential of the creative and cultural industries.

Moderator: Pratik Vithlani, Mimeta – centre for culture and development, Sweden

Contributions from:

Mike van Graan, Arterial Network, Africa - Informal networking to support arts/culture in civil society and development of creative industries in Africa

Cato Litangen, Mimeta, Norway/Kenya - Supporting arts/culture projects through collaboration in production, knowledge sharing and communication

Venue: Missionskyrkan - Top floor

448 Rework People: Music with a message

What is the artists' role in our world of uncertainty and change – as creative concerned citizens of the community? Why do some efforts get through and others flop? How can music communicate what we can not talk about? How can it open what is kept closed in us. Artists created No More Lullabies to wake us up to the threats of climate change. Launched by Ane Brun after the Tällberg Forum 2009, the No More Lullabies initiative presents this workshop to explore further project development.

Venue: Musikskolan

449 Rework Finance: A medley of product and service innovations searching investments

In this session, a set of companies that provide new solutions to old and new problems – in diverse areas - present their business models and the investment opportunities they offer.

Moderator: Maria Rylander, CONNECT, Sweden

Contributions from:

Johan Larsson, Consumentor, Sweden - ShopgunTM reveals an item's sustainability performance while you browse for everyday products in stores - for sustainable decision making

Anneli Hult, Digital Webb Media, Sweden - Web based education for energysaving driving, helps to decrease carbon discharge on a individual basis with 25 %

Jan Eriksson, Flexiwaggon, Sweden - A rail wagon incorporating new technology to provide cheaper, faster transport of road vehicles with less environmental impact

Kurdi Rad, Growyn, Sweden - A web search engine to fund social entrepreneurship

Svante Bengtsson, REHACT, Sweden/Poland - A system to lower energy needs for heating/cooling in property with 85 %, ROI less than 3 years.

Venue: Arena - Brudpiga

450 Rework Finance: Making startup companies sustainable - What is the role of funders?

Seed financing plays an enormously important role to help entrepreneurs grow from small initiatives to market leaders. Increasingly, seed funders are not only challenged with the financial prospects but also their investments' long term sustainability and contribution to society. This session will focus on the new investment criteria and guidelines that can help investors incorporate long term sustainability in investment decisions, and identify what values and business approaches investors will need to look for among startups.

Moderator: Bo Norrman, Innovationsbron, Sweden and Thierry Saunders, BiD Network, Netherlands

451 Rework Finance: Creating a carbon fund to enable efficient flows of capital from carbon markets to sustainable projects

The voluntary carbon markets hold out the promise of significantly altering the underlying business case for many emerging value chains. Yet, excessive transaction costs and risk premiums mean that this promise remain a dream for most projects. New financial instruments could help eliminate risk and reduce transaction costs. This session, building on earlier sessions, explores how new fund constructs, aided by donor driven credit instruments, could help provide tipping points in development efforts.

Maud Olofsson, Minister for Enterprise and Energy and Deputy Prime Minister, Sweden

Wendi X. Zhang, China

Venue: Arena - Floor

462 Featured session: Rethinking the role of enabling technologies

Our interdependence is enhanced by connectivity tools, and technology is unlocking creativity and providing innovative solutions to some of the greatest global challenges. With new social media everyone can be part of the global conversation in ways never imagined. With more than 4.7b mobile subscriptions today, and a future which by 2020 will have 50b connected devices the possibilities are endless. In developed economies, extensive ICT infrastructure is making everything accessible and connected. In the developing world, smart use of new tools is making leapfrogging possible. The session will discuss the role of enabling technologies in the transition to a more sustainable society, with a particular emphasis on mobile solutions.

Moderator: Elaine Weidman Grunewald, Ericsson, Sweden

463 Rethinking Business and Society: shaping sustainable production and consumption

Building a truly sustainable global industry and marketplace will take courage and creativity – from both the producers and consumers. Introducing innovative products to the market is a complex dance of trust between company and consumer. Each need to send strong signals that they are ready for change – or a new market won't work. This conversation explores the fascinating interplay between supply chains, marketing and retail that, when synchronised, will shape the lifestyles of the future.

Moderator: Mohan Munasinghe, Sustainable Consumption Institute, UK/Sri Lanka

Contributions from:

Ingrid Zeegers, Philips, Netherlands

Sandra Poole, Genzyme Flanders, Belgium

Hans-Olov Olsson, Chalmers University of Technology, Sweden

Venue: Svea - PK

464 Rethinking corporations: making change from the inside

Social entrepreneurs and small innovative businesses are spearheading change with a positive impact on the world. But what about working in existing businesses? Is there a place for enterprising young people to help bring about social and environmental change within major corporations? This session will explore the possibilities to go beyond strict job descriptions to implement solutions that both benefit organizations and create positive world change. We will share examples of successful "social intrapreneurs," and discuss ways to help them thrive.

Moderator: Maggie McArthur, Net Impact, USA

Contributions from:

Initiatives from the Net Impact network

Yvonne Thunell, Mentor International, Sweden

Venue: Svea - Basement

466 Rethinking the future of talent - what next after the "Wiki-world"?

Traditionally, we have built progress on the notion of individual talent. But what happens in a "wiki-world" where knowledge is everywhere, and where the greatest talent might be the ability to collaborate? In this session we will look at the future of talent, and more specifically look into future forecasting and interdisciplinary innovation.. We will ask questions such as: Are we moving from an individual to a collaborative notion of talent, and what does that mean? Which will be the most valuable methodologies for creative problem solving? Which will be the riskiest?

Contributions from:

Ronald Jones, University College of Arts, Craft, and Design, Sweden

Emma Stenström, Stockholm School of Economics and University College of Arts, Craft, and Design, Sweden

Peter Majanen, Quattroporte, Sweden

Venue: St Persgården - Top floor 1

467 Rethinking innovation; a biomimicry learning journey

Biomimicry is an emerging discipline that studies nature's best ideas and then imitates these designs and processes to solve human problems. This session highlights the latest development in biomimicry and explores how current advances can integrate with the wider parameters of the economy.

Moderator: Daniel Wahl, Findhorn College, UK/Germany

Contributions from:

Kenny Ausubel, Bioneers, USA

Amy Cannon, Beyond Benign, USA

Andy Lipkis, Treepeople, USA

Bryony Schwan, Biomimicry Institute, Zimbabwe/USA
Nina Simons, Bioneers, USA

Venue: StPersgården - Musikens hus

468 Rethinking employment, sustainability and conflict resolution - in depth

Sustainable, job-creating initiatives require a diverse range of talents to turn the good ideas into reality. Experienced international conflict-solvers will lead the session to enhance the life skills of youth leaders and their mentors as they work toward their goals in sustainable development. Participants will learn and practice skills of deep listening, empathetic identification, conflict analysis, collaborative decision-making, pro-active intervention in conflict and interactive case-based pedagogies.

Moderators: Bob Evans and Alice Evans, the Plowshares Institute, Yan Yan Yip, Civic Exchange, Hong Kong

Venue: Missionskyrkan - Meeting room

June 4, 20.30-21.30

471 Fire-side stories - exploring our leadership challenges

How be present, clear and courageous amidst our busy and fast paced lives? To bring in new technology and innovation for our sustainable future we need strong leadership! This session will explore the need for strong leadership today, what practices are needed, and how nature can help us cultivate these practices. It will be a friendly fireside setting where you are invited to listen to stories, to how you might practice and what calls you. Listen to nature and to yourself.

Moderators: Göran Gennvi, Tällberg Foundation and Nature Academy, Sweden; Mark Beanland, Denmark; Rowan Simonsen, Upstream Consulting, Denmark

Venue: Outdoors - Arena entrance

472 A new emerging political generation?

Radical change is on the way. What are the political implications? Do current political infrastructures have what it takes to endure and direct the social reverberations? Can we discern the politics of the future, globally and locally? Listen in as influential political voices of today reflect upon and discuss the politics of tomorrow.

Moderator: Jim Wine, Tällberg Foundation, Sweden

Maria Wetterstrand, Green Party, Sweden

Venue: St Persgården - Ground floor

473 TEN9EIGHT (movie) - Urban youth competing in business

In America a kid drops out of high-school every 9 seconds. Imagine if they didn't. The film TEN9EIGHT, by award-winning director Mary Mazzio, chronicles the stories of several inner city teenagers as they compete in a nationwide business plan competition (run by the Network for Teaching Entrepreneurship).

Venue: Visir

474 Indigenous communities in the Amazon: A cosmivision of humans on earth

For 30 years, Dr. Martin von Hildebrand has led efforts to defend indigenous rights and safeguard both cultural and ecological diversity in Colombia and the wider Amazon region. Indigenous communities have a lot to teach us when it comes to protecting the eco-systems, but also for how to relate to the "modern" world.

Presentation by Martin von Hildebrand, Fundacion Gaia Amazonas, Colombia

Venue: St Persgården - Top floor 1

475 Empowering millions of children with rights and democracy

An ongoing humanization of every new generation is necessary for any sustainable development. Magnus Bergmar, founder and CEO of the World's Children's Prize, takes us on journey (in words and video) showing how the World's Children's Prize is the perpetual motion machine to a programme that has an impact on millions of children's lives, educating and empowering them on their rights and democracy, giving them faith in the future and a platform from which they can demand respect for their rights. The World's Children's Prize belongs to 24 million children.

Presentation by Magnus Bergmar, World Children's Prize, Sweden

Venue: Missionskyrkan - Meeting room

476 Breath of Music: Bach reworked

You are invited to a performance of music in a more intimate setting to offer you time both to catch your breath and be inspired. A time for reflection, unique conversations and the chance to connect with each other in new ways. At this session Svante Henryson will rework a Bach Suite for solo cello.

Performance by Svante Henryson, on cello, Sweden

Venue: StPersgården - Musikens Hus

477 Breath of Music: No more lullabies

You are invited to performances of music in more intimate settings, to offer you time both to catch your breath and be inspired by artists from the No more Lullabies project working in different musical genres with their own stories to tell. A time for reflection, unique conversations and the chance to connect with each other in new ways.

Venue: Hembygdsgrändar - Tunet

June 5, 08.30-09.30

501 A nature experience to empower change makers

How do I meet others with presence, authenticity and strength during my day? How do I use nature to slowdown, become grounded, centered and mindful? This session will focus on practices that can be a catalyst to make you present, focused and clear when you meet opportunities as they arise. It will be more practice and less words. You will practice to respectfully listen to nature as a source of inspiration and still your own mind- You may learn to separate the petty stuff from the important.

Guides: Mark Beanland, Denmark; Rowan Simonsen, Upstream Consulting, Denmark

Venue: Outdoors - Arena entrance

502 Creative people for a dynamic world

How do you develop your business creativity? How do you nurture new thinking within your organisation? How do you dare to think differently? This session will provide inspiring examples and suggest concrete steps for how to think differently around creativity and business development.

Presentation by Teo Härén, Interesting.org, Sweden

Venue: Arena - Hub meetingroom

503 From prejudice to recognition - tools for a global generation

Around the world, we need to understand each other better in order to engage more people in the development of society. It is a democratic right to be listened to with respect. In our globalised world, the boundaries we used to know as gender, race, ethnicity and age we now need to overcome with tools and a mindset for a new global generation. If we do not understand this we will continue to deny groups of people true participation. What you see is not what you get.

Presentation by Edna Eriksson, Sombrero Kommunikation, Sweden

Venue: Arena - Grannlåttn

504 From biomimicry to the biosphere economy

New insights about the values of ecosystems are reaching us from the leading edge of science. And around the world, innovators are experimenting with new solutions – using nature’s limits to spur creativity. This session presents a possible biosphere economy, a future where business and politics increasingly bridge the gap between man-made assets and nature’s ecological infrastructures that underpin our economies and societies.

Moderator: Alejandro Litovsky, Volans, UK

Contributions from:

Paul Stamets, Fungi Perfecti, USA

John Warner, Warner Babcock Institute for Green Chemistry, USA

Greg Watson, Massachusetts Executive Office of Energy and Environmental Affairs, USA

Venue: Arena - Restaurant

506 Café for Changemakers - Open conversation in the Arena

This session is about sharing and preparing you for coming back home. How will you plant the seeds of change and how can you make them thrive? How can you make sure you have the connections and support you need when you start realizing your ideas?

Moderators: Emma Nilsson, Tällberg Foundation, Sweden, and Anna Emmelin, Sweden

Venue: Arena - Floor

June 5, 10.00-12.00

512 Rework mechanisms: Practical tools and policy recommendations to strengthen global youth leadership

What practical tools and policy changes are needed to build and strengthen the global youth leadership field, in support of youth-led solutions to unemployment? The session will explore creative and innovative solutions to building the capacity and sustainability of the field, highlighting the role of funds, technology, infrastructures, cross-sectoral collaboration and global networking, as well as challenges and obstacles that need to be overcome.

Moderator: Sarah Hewes, Young Foundation, UK

Contributions from:

Rachelann Brooks, Groundwork MSSTT, UK - Building sustainable communities in areas of need through joint environmental action

Carina Schmoltdt and Elisha Butterworth, The Royal Association for Disability Rights, UK - A pan-disability organisation working to increase the capacity among organisations to generate and maintain commitment to youth leaders(hip)

Dean Ashton, Street Games/Chapter 1 the Limes, UK - A partnership to create a national framework for youth leadership in sport

David Rolls and Steve Lovell, MOSAIC/ Campaign for National Parks, UK - Enabling young people to take key leadership roles in the protection of National Parks

Evelina Savickaite and Jonathan Legg, North Tyneside Voluntary Organisations Development Agency VODA, UK - Media projects that explore issues within the community and empower young people to make changes

Venue: Musikskolan

513 Rework mechanisms: Bringing youth leaders and authorities together to tackle poverty

Almost half the world's population is under 25. Over one billion people live below the absolute poverty line, \$1 per day, and young people are an especially vulnerable group. Unfortunately governments and institutions around the world often see young people as a problem, rather than see the potential of young people's capacity if they get power and resources to affect their future. During this session we will highlight three example from Liberia, Kenya and Ghana where young leaders tackle poverty together.

Moderators: Josephine Sundqvist, LSU, Sweden and Lena Kjellberg, LSU, Sweden

Venue: Arena - South loge

514 Rework mechanisms: Cross-boundary communities to support sustainable change

Developing regions with heterogeneous economies face different challenges and move along diverse paths. But young people face similar challenges, and margins tend to be equally tight for entrepreneurial initiatives for sustainability and development. How can youth led initiatives connect across borders to strengthen support for and attract attention to their common struggle? Building on current experiences and key obstacles, this session will develop a tool-kit for nurturing regional communities pushing for sustainable change.

Moderator: Henrik Ahlen, Alfa Bravo, Sweden

Contributions from:

Vo Viet Anh, eHub-the Big Green Hut, Vietnam - Mentoring students in environmental awareness

Gayane Sargsyan, Rework Caucasus, Caucasus - Uncovering myths and transforming realities through cooperative learning and networking

Muhammad Abushaqra, YES Egypt, Egypt - Engaging Arab Youth through forums and networks

Venue: Svea - Basement

515 Rework mechanisms: Contests to Rework the world

Contests and challenges are methods to tickle the minds of young people and engage them in a creative idea development and idea realization process. The examples presented in this session has gone further than only a business plan competition; they develop ideas and engage youth leaders, business leaders and politicians in the process.

Moderator: Heba El-Rafey, Bibliotheca Alexandrina, Egypt

Contributions from:

Rex Northen, Clean Tech Open, US - The world's largest cleantech business competition ,
Gustaf Josefsson, Entreprenörsjakten/Entrepreneurial Chase, Sweden - A scavenger hunt showing young people that entrepreneurship can be easy
Hjärna.Hjärta.Cash/Brain.Heart.Cash, Sweden - An intense idea competition to develop the sharpest society-changing business ideas

Venue: Gymnasium - Aula

516 Rework mechanisms: Turning the urban metro system into an engine for social integration

The Stockholm metro physically integrates the city and provides many jobs. As key meeting points for local youth, metro stations in low-income areas are, however, often beset by social problems and hostile atmospheres. In this session, MTR , which manages the metro, and the Swedish Public Employment Service, jointly develop a vision for turning these socially strained spaces into thriving job and community centres. Local organisations and inspiring examples from elsewhere will also contribute.

Contributions from:

Torborg Chetkovich, MTR, Sweden
Helena Rojas-Lundgren, Municipality of Botkyrka, Sweden
Dayne Walling, City of Flint, USA

Venue: Arena - Award room

531 Featured session: So much to do, so few jobs – Så mycket att göra, så få jobb

Sweden as well as the rest of the world is facing an enormous need to create jobs for young people, while at the same time dealing effectively with the economic, social and environment challenges. Today, sustainable and environmentally friendly solutions are increasingly being discussed, but there are few examples of economic policy - including labor market policy – integrated with goals of sustainability. This debate on work, unemployment and sustainability will bring together representatives from Swedish government, leaders from political parties, youth, companies and organizations. Focus of the discussion will be on how integrated and innovative solutions to the jobs and sustainability challenge can be practically implemented in many different sectors of society and lead also to economic growth and social integration.

This session is held in Swedish

Moderator: Christer Gruhs & Pernilla Ohlin, Dalarna Newspapers, Sweden

Contributions from:

Widar Andersson, Political editor Folkbladet, Sweden
Carl Bennet, Getinge Group, Sweden
Karin Bruce, Tällberg Foundation, Sweden
Gabriel Ehrling, National Council for Swedish Youth Organizations, Sweden
Magnus Henrekson, Research Institute of Industrial Economics, Sweden
Carin Jämtin, Oppositional Vice Mayor of Stockholm, Sweden
Ulrika Liljeberg, Mayor, City of Leksand, Sweden

Sven Otto Littorin, Ministry of Employment, Sweden
Birgitta Ohlsson, Minister for EU-Affairs, Sweden
Hans-Olov Olsson, Chalmers Tekniska Högskola and Tällberg Foundation, Sweden
Martin Ådahl, Forum for Reforms, Entrepreneurship and Sustainability (FORES), Sweden
Maria Wetterstrand, Green Party, Sweden
Lena Westerlund, The Swedish Trade Union Confederation, Sweden
Thomas Östros, Member of the Swedish Parliament, Social Democratic Party, Sweden

Venue: Arena - Floor

532 Featured session: Rethinking Business and Society: What is next for Corporate Social Responsibility?

Corporate Social Responsibility (CSR) is evolving and keeping global businesses on their toes. Developments are forcing core business strategy to respond to the demands of society for integrated action in economic, social and environmental development. This session will look at what this means for CSR. Areas covered include: constructive lobbying, risk management, job creation, awareness of planetary boundaries and the new era of interactive communications with consumers.

Moderator: Christine Loh, Tällberg Foundation, Sweden and Civic Exchange, Hong Kong

Contributions from:

Elisabeth Ström, Vattenfall, Sweden
Rajendra Sisodia, Bentley University, USA
Ronald Osumba, Safaricom, Kenya

Venue: Arena - Sturstäv

533 Rethinking Finance - the future financial mechanisms

What are the structural adjustments required in the global financial system to power the multitude of underserved emerging efforts on display at the summit? This open conversation also serves as a prep-session for the plenary investment forum.

Moderator: Herman Mulder, SD Advisor and Former ABN AMRO, Netherlands

Venue: StPersgården - Ground floor

534 Rethinking design

How can design contribute to systems change? How can all individuals become designers of more sustainable futures? In this session we will explore how design and fashion might be reinvented for more sustainable futures, and how design might be an integral part of changing how we are thinking, acting and interacting. Key to the session is the notion of design as an emergent, synergistic and collaborative process and the importance of visualising, modelling and playing with future visions.

Moderators: Mathilda Tham, Beckmans College of Design, Sweden and Jennifer Leonard, IDEO, USA

Venue: Arena - Brudpiga

535 Rethinking aids prevention and employment creation

A billion young people around the world lack employment opportunities. At the same time, half of all new HIV infections in the world happen among people of ages 15-24. This provides a strong case for integrated responses. Yet, there are very few initiatives that tackle both HIV and unemployment, and there are few youth led efforts to fight the disease. This open conversation will explore innovative ideas for youth led HIV/Aids

prevention initiatives, and methods to link employment and entrepreneurship opportunities to HIV/Aids prevention.

Contributions from:

Merle Allsopp, National Association of Child Care Workers, South Africa
Anita Krug, AIDS Accountability International, Australia
Gao Qi, Chinese University of Hong Kong

Venue: Arena - Restaurant

536 Rethinking global governance - solidarity matters

Effective global governance needs to reflect the solidarity among people in their efforts to make this world more democratic and human rights oriented. Today's hegemonic structures misleadingly promise development for all. The Dag Hammarskjöld Foundation seeks to explore opportunities to create arenas for dialogues that can impact on and shift the dominant discourses in the United Nations system - in the absence of better alternatives - to strengthen global efforts towards security for all.

Moderator: Henning Melber, Dag Hammarskjöld Foundation, Sweden

Contributions from:

The Burmese Democracy Movement, Burma
Mie-Na Srein, Dag Hammarskjöld Foundation, Sweden

Venue: Missionkyrkan - Meeting room

538 Rethinking transparency and work

Together with many tangible hinders towards a green job transition, hidden - but all the more demanding - obstacles lie in corruption. This limits the impact of initiatives and impedes development across the globe. We know it is one of the greatest challenges against global development. So how do we address, but also work around, such circumstances? This is an open conversation on how to create jobs and proceed towards a sustainable transition through transparent processes and avoiding the pitfalls of corruption.

Contributions from:

Han Dongfan, China Labour Bulletin, Hong Kong, China
Gina Romero, OCASA - Youth against Corruption, Colombia

Venue: Brandmannen - Room 1

539 Rethinking the leadership challenge and institutional change

The global transformation pushed upon us by social, financial and ecological pressures challenges our institutional frameworks. The organisations and tools we have are poorly suited to handle the challenges we are faced with. This puts the leadership challenge in a new context, where the difficulty is not primarily to manage existing structures efficiently, but rather to create new tools and institutions to be able to have the impact required. It requires entrepreneurial learning and innovative thinking as well as an ability to design a future sustainable society.

Moderator: Göran Gennvi, Tällberg Foundation and Nature Academy, Sweden

Contributions from:

Jakob Rydén, Municipality of Lerum, Sweden
Anna Blomquist, Municipality of Sunne, Sweden

Venue: StPersgården - Top floor 1

541 Training entrepreneurship in practice - a case based workshop (part 2)

This session builds on Training entrepreneurship in practice, part 1. In this case based workshop participants have the opportunity to make business decisions and then experience the consequences of those decisions directly. Each participant brings different skills and perspectives to the case and its business environment. Through this session the participant gets practical skills to apply in one's own business.

Moderator: Samuel Gonzales, FundacionE, Mexico

Venue: Arena - Skybar

542 Training for sustainability leadership

The session's goal is to support the participants to realize their role as leaders for more sustainable future and to help them to learn what the common, global values are that everyone can share. The aim is that after the session the participants are aware of the principles for sustainability and they will comprehend how those can be used as a tool on individual and organizational level. The session drives for positive change in participants' everyday lives and creates a sense of global responsibility.

Moderator: Jaana Laitinen, Earth Charter International, Costa Rica

Venue: Svea - PK

543 Training to RE:VOLVE – How passion drives innovation

What kind of projects does the world need? What kind of leadership does your project need? What sets you on fire? This fully interactive session introduces the Kaospilot Social Innovation philosophy to help you create a solid foundation for your movement! We will show you how to evolve ideas into real sustainable impact and help grow your idea and feed your passion.

Moderator: Simon Kavanagh, Kaos Pilots, Denmark

Venue: Svea - Aula

544 Training to make it happen: The art of creating new work

The single most important skill in developing your personal strength is knowing how to navigate the turbulence of creative action and new planning. Innovative thinking is as close as combining 2 unusual ideas into a third, new idea. You just have to know how to access it. Your curiosity is your tool. Your capacity to engage in disciplined curiosity is the learning. This learning makes failure emotionally comfortable. Before you know it, you learn how failure is actually the seed of the next germinating idea. Join us for leadership training with a new twist. It is about creativity!

Moderator: Jeanette Eberhardy, WIV, USA

Venue: Arena - Lobby East

545 Training in fundamentals of entrepreneurship (part 2)

This session builds on the first part of the fundamentals of entrepreneurship. In this session participants will understand the critical aspects of designing a business model and will use actual case studies to design the steps of moving ideas to entrepreneurial development.

Moderator: Joel Nitzberg, YES, USA

Venue: Arena - Skybar
